**SUBSTANCE OF INTERVIEW**

Honorable Commissioner of  
Patents and Trademarks  
**ATTN: Robert W. Bahr**  
**Special Program Law Office**  
Washington, D.C. 20231

Sir:

This paper is filed to summarize the interview between Examiner Robert W. Bahr of the Special Program Law Office and Applicants' Representative, Shelley Fussey, held at the P.T.O. on March 21, 1995.

Applicants gratefully acknowledge the Examiner's willingness to grant the personal interview.

The Decision on Petition, mailed March 10, 1995, was discussed in light of the prosecution history of the application. The details of the sequence requirements and Applicants earlier attempts to file a grantable petition were discussed.

The possibility of filing a Petition to Revive under 37 C.F.R. § 1.137(a), and the period of abandonment for use in the necessary Terminal Disclaimer, were also discussed. The Examiner suggested that a period of 27 months be disclaimed.

Applicant respectfully requests that the present document be made of record in the Application.

Respectfully submitted,

Shelley P.M. Fussey
